

OFFICE OF THE CHIEF ENGINEER P.W.D. RAJASTHAN JAIPUR

No.EE(R&D-II)'PMGSY/CIRCULAR/2003/D-2106

Dated : 14.11.2003

CIRCULAR

Time & again It has been observed that during construction of roads in PMGSY Scheme the sub-base is laid without checking the proper compaction in the sub-grade. Similarly the WBM layers are laid down without ascertaining the proper compaction of sub-base. It has also been observed that in some cases bituminous work is taken up without consolidating the WBM layers properly.

Therefore, it is hereby enjoined upon all Additional Chief Engineers, Superintending Engineers, Executive Engineers and Assistant Engineers that at every stage of road construction i.e. completion of earth work, completion of granular sub-base and completion of WBM work, the concerning Superintending Engineer or Executive Engineer shall issue a certificate regarding satisfactory completion of the particular stage, then only the subsequent work activity would be allowed. These instructions are to be followed strictly.

Please acknowledge the receipt of this Circular.
