OFFICE OF THE CHIEF ENGINEER, PWD RAJASTHAN, JAIPUR

No.F.78(1)/Sec.I/A/2002/D-4243

Dated : 9th April, 2002

CIRCULAR NO. 9/2002

The construction of road works in the State have been started on time bound basis under various schemes like Pradhan Mantri Gramin Sadak Yojana, Central Road Fund, Road Upgradation Project etc. The funds available under these schemes in various districts have increased tremendously and it is not possible for the existing organisational set up to cope up with such a big work load which involves not only planning but execution of quality works.

For execution of works, the department at present has a 3 Tier System of working of Executive Engineers, Assistant Engineers & Junior Engineers. Due to dearth of technical personnels and looking to the time bound programme for executing the works the 3 Tier System being adopted by the department is required to be changed to 2 Tier System. This would increase productivity and also improve quality.

As such PMGSY works in the first instance be distributed by the Executive Engineer judiciously amongst Junior Engineers and Assistant Engineer of a Sub Division to be executed by them independently. They will be directly responsible to the Executive Engineer concerned. The Executive Engineer concerned will supervise the overall works going on in his jurisdiction.

These instructions be strictly followed.

(H.L. MINA)
CHIEF ENGINEER, PWD

9/4/2002
