

OFFICE OF THE CHIEF ENGINEER, PWD, RAJASTHAN, JAIPUR

No. EE (D and T) D-661

Dated: 22/11/2002

Technical Circular : 01/2002

The payment of WBM work in PMGSY, CRF and National Highway roads is being made on the basis of volumetric measurements after taking levels at site. The current practice does not give any assessment regarding quantity of screening used in WBM works, as no record of quantity of screening used is kept in measurement books.

For the proper control over the quantity of screening consumed in WBM works, it is enjoined upon all that, in future, before allowing laying & consolidation of WBM in road and NH works, the full quantity of screening required for particular kilometer and particular layer be collected at site and its measurement be recorded in measurement book, duly checked. Only after that the contractor be allowed to carry out WBM Work. This clause shall be included in the special conditions of the works, put to tender in future.

Compliance of this must be ensured.
